Governance, Risk & Compliance:

Regs4yachts

Compliance. Without the complexity.

A **trusted source** for regulatory publications

Through OneOcean, wherever a yacht is in the world it has the resources it needs to remain compliant with all regulatory and environmental requirements and provide an accurate audit trail with consistent digital reporting – all accessible through the OneOcean Platform.

Regs4yachts, the Regulatory Compliance module, provides yacht specific, uninterrupted access to live and archived regulatory publications from multiple sources, including the IMO, ILO and numerous flag states. Fully digital, it's a fast and efficient way of accessing compulsory maritime legislation, regulations and supporting guidance to ensure every vessel maintains compliance.

**Search our unrivalled
library of yacht
legislation, regulations
and documents in one
digital tool.**

Mitigate the risk

Staying compliant can be a complex and time-consuming process. You need to factor in international laws, ever-changing maritime regulations, plus guidance and rules that protect crew, vessels, and the environment.

The repercussions for getting it wrong can be significant, incurring both financial and reputational consequences.

Regs4yachts replaces the manual process of sourcing, researching, collecting, reviewing, updating, distributing, and tracking regulations on a vessel-by-vessel basis – so that you can focus on operations.

Benefits

Mitigated risk of non-compliance through uninterrupted access to relevant regulations.

Provides clarity around regulation changes and updates specifically for yachts, helping you understand the impact on your vessel and its operations.

Saves time, removing manual searches across multiple publications.

Conserves valuable hard drive space on board as there is no need to store the entire Regs4yachts database offline.

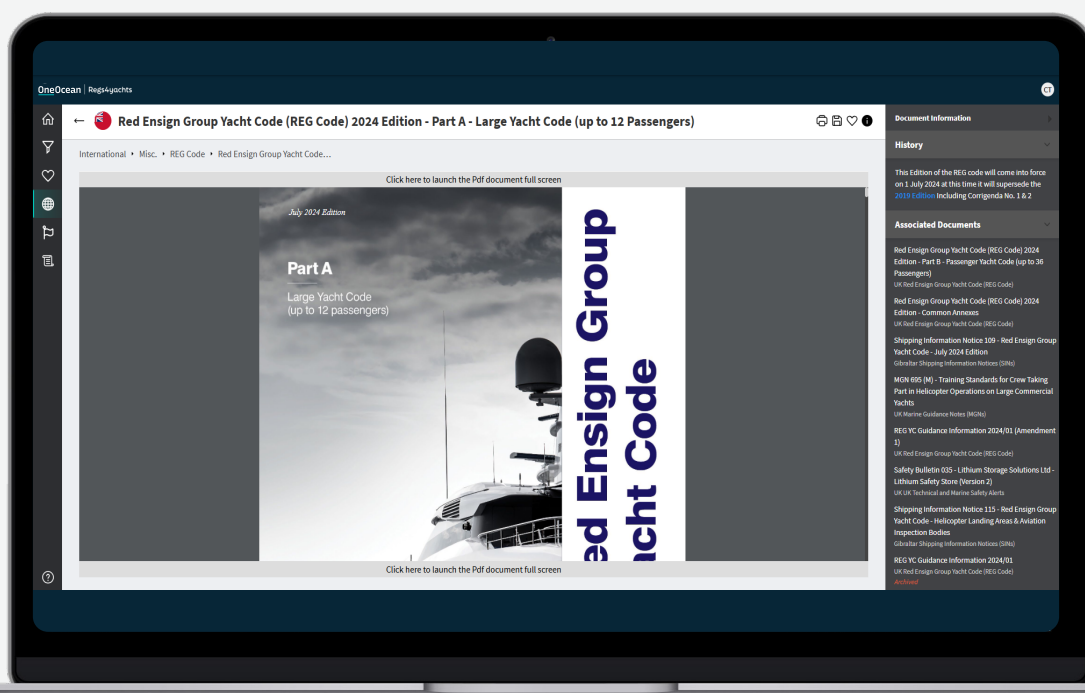

Features

Online and full offline operating modes for crew onboard, including a **secure, encrypted and stable** backup for mandatory documents.

Document histories signify that documents are up to date and provide change tracking through document versions.

Advanced searchability with our AI-powered Q&A feature, saved searches, and the latest updates by source.

Secure, encrypted and stable backup (Compliance Index) pre-defines the essential documents required for compliance on board in line with carriage requirements.

Built for **yachting**

Regs4yachts is updated and managed by the OneOcean team of professional mariners, giving you access to high-quality regulatory data and an extensive archive built over 20+ years.

This innovative solution can be used on PCs and tablets. With the Onboard version allowing crew to seamlessly switch between online and full offline operating modes – enabling uninterrupted access to regulations.

Our secure, encrypted and stable backup for

mandatory documents when connectivity is limited, known as the Compliance Index, ensures crew always maintain compliance.

By hosting documents on our own servers, we remove any further risk of losing access to publications.

Benefits

Supports yacht-specific operations with a tailored set of documents which are maintained and updated by our specialist team.

View the full picture with linking between related documents and contextualise the wider regulatory landscape.

Demonstrates compliance to authorities, regulators, charterers and insurers.

Features

New amendments to regulations are processed and live **within 48 hours** of being made available by the source, and a **12-month timeline** of forthcoming amendments.

Includes **regulations from the top flag states for yachts, including the Red Ensign Group**. **Additional datasets**, such as LR Rules, are also available online and offline.

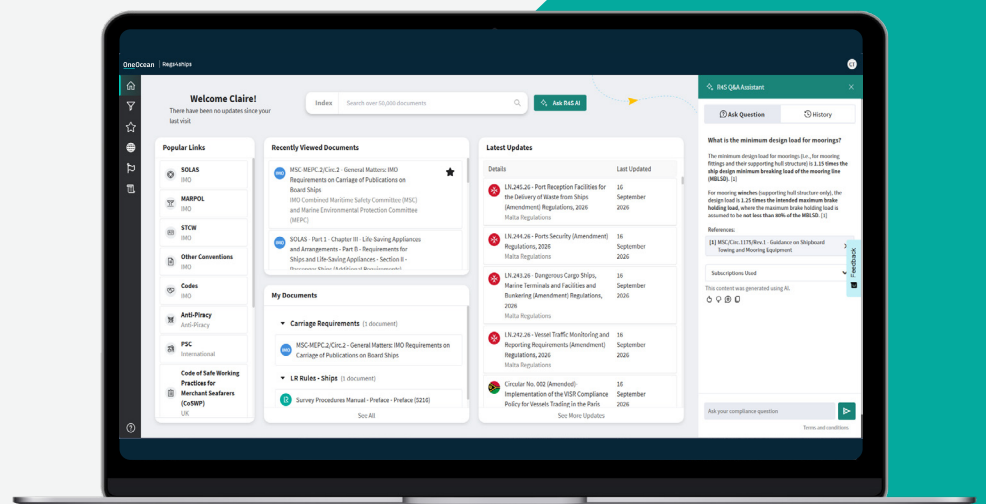

The **Compliance Index** provides a dedicated view of documents for inspection purposes whilst **document histories** and **Latest Updates** demonstrate you are up to date, and therefore compliant. Regs4yachts is also **endorsed by flag states and authorities** as a compliant digital solution.

Regulatory answers, made clearer

The **Regs4yachts Q&A Assistant** helps yacht and shoreside teams find and understand regulatory information more efficiently.

Ask a clearly defined regulatory question and receive an AI-generated answer supported by references to the relevant source material.

**Ask.
